Dear Hugh (aka Mr Williams),

I would like to thank-you for your amazing course and I have learnt a lot about CPR and bandages! Now I know to do mouth to mouth properly. With all your schools, we, from Colville, hope that our school was the best, in your career! We would like to see you come here again sometime!

After doing the course, you have saved our lives to save others. We appreciate the time and care you've put into this course, without this, we'd be panicking that the sight of an unconscious person, I would anyway!

CPR is something that I shall take with me, forever. If someone was in trouble, I would remember all the things you taught me to do like 30 compressions. Anyway, I know how to do bandages too! I have trouble doing a shoelace knot but I will know how to do it sooner or later.

Back to the fact, I hope no other school will be better than Colville because our school is open to learning, and you've just made it wider! Now knowing lifesaving skills, we could save an important person or even just a friend. To thank you, I wrote this letter. I hope schools nationwide will appreciate the effort as much as we did!

Please remember Colville as a cheerful, yet energetic, school for its willing to learn.

Can you please...

Yours sincerely,
Anna Daniel!
